Where are we now?

In this Issue

- 1 [Where are we now?](#)
- 2 [Transnational Partner Meeting](#)
- 3 [What's coming?](#)
- 4 [Partners](#)

It is now almost two years since we started this project. We started with high hopes and many ambitions, and now that we can see the results, we are more eager than ever to make DIGIPRO a reality for schools, families and children.

We still have some time ahead of us and a lot of work to do. But before that, let us tell you what we have been up to in the last few months!

Transnational Partner Meeting

On 28 and 29 June 2022, the **Transnational Partners Meeting** was held in **Nicosia, Cyprus**. Due to the pandemic, it was the first time that all partners could meet in person, which was **crucial for the development of the project**, as many important decisions had to be taken.

The meeting was a great success and enabled all partners to decide on the next steps.

What's coming?

Both the **Documentary** and the **Cartoon** have been completed and are available with subtitles in all partner languages.

In the section of the **Cartoon**, you can find **guidelines for teachers and families** to use it in a way you can work cyberbullying with the children.

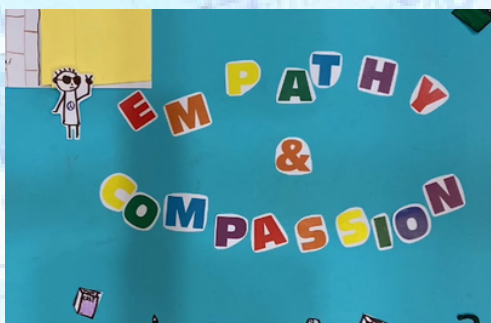

The guide is structured according to the themes of the video and addresses different feelings and emotions (kindness, compassion, patience, etc.). In each section you will find an activity to work on these emotions in a way that is helpful in the fight against cyberbullying.

Available on the project website soon!

And what comes next? We are very excited about the **next result: our own app!** The app will contain two scenarios, school and home, in which the children will have to **live through different situations**, decide what is best and play the role of the victim, but sometimes of the bully!

Visit our website to learn more!
